

Puddle of Mudd

The Table Mountain Concert Series Presented by Bud Light, Toyota & Comcast

The Big Fresno Fair is pleased to feature **Puddle of Mudd** as part of The Table Mountain Concert Series. The alternative rock band has spent the last couple years touring the world and they will bring their high energy act to the Paul Paul Theater stage on **Saturday, October 17th**.

Puddle of Mudd was formed in 1992 by lead singer Wes Scantlin. The band released two albums in their early years, but many of the original band members separated due to personal differences. Limp Bizkit lead singer, Fred Durst, contacted Scantlin wanting to reassemble Puddle of Mudd. Durst helped Scantlin assemble new band members, signed them to his new label, Flawless Records.

Come Clean, the bands major label debut, was released in August of 2001 and has sold more than five million copies to date. The album spawned a string of number one mainstream-rock hits. “Blurry” topped the rock charts reaching number five on Billboard’s Hot 100 and climbing all the way to number eight in the United Kingdom. The hit single was radio’s most played track of 2002. The next two singles, “Drift & Die” and “She Hates Me,” also reached number one on the Mainstream Rock charts. The bands success came to fruition when they were recognized as Billboard Magazine’s Top Rock Artist of 2002.

The band’s latest album, *Famous*, offers a more mature sound and has added even more hits to their expanding collection. The most commercially successful single off the album, “Psycho”, collected an abundant amount of accolades and awards for the band. “Psycho” was named Billboard Magazine’s number one Mainstream Rock song of 2008 and helped make Puddle of Mudd the number two Mainstream Rock Artist of the year.

Puddle of Mudd has sold more than eight million albums and boasts six number one singles putting them in rarified air and making them modern rock royalty. Don’t miss your chance to experience the energy and emotion on display live at Paul Paul Theater on **Saturday, October 17th**.
